# CRVS OVERVIEW & TSU FUNCTIONS

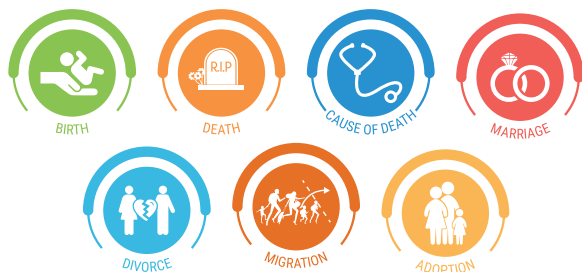

## TECHNICAL SUPPORT UNIT Civil Registration and Vital Statistics (TSU- CRVS)

MINISTRY OF PLANNING  
DEVELOPMENT AND REFORM  
GOVERNMENT OF PAKISTAN

## Civil Registration and Vital Statistics (CRVS)

Civil registration is the continuous, permanent, compulsory and universal recording of the occurrence and characteristics of vital events of the population in accordance with the law.

## National Vision 2030 (for CRVS)

By 2030, all people in Pakistan will benefit from universal and responsive CRVS systems that facilitate the realization of their rights and support good governance, health and development.

## CRVS and SDGs

## National CRVS Stakeholders

## Role of Planning Commission in Revamping CRVS

Resolution adopted in combined session of Parliament assigns, inter alia, National Vision, Broad Policy Framework, Strategic Planning, and Innovations and Reforms to Planning Commission to be accomplished in participatory and collaborative paradigm.

## Institutional Arrangements for CRVS

- National Steering & Coordination Committee
- Technical Support Unit (TSU-CRVS)
- Provincial Steering and Coordination Committee

## CRVS Key Issues

- No comprehensive & uniform CRVS Law.
- Low Birth and death registration levels.
- Non-availability of actual vital statistics related to registration.
- No or poor quality cause of death information (from hospitals but not using ICD Coding).
- Poor data quality and coverage of reporting.

## Information Flow in proposed CRVS Model District
